

## Mail Box Standard The Planters

When first developed the mailbox shown in style "A" below was installed as the standard in The Planters. Due to maintenance issues and the box not being one approved by the USPS, the style was changed when section 4 was developed. This new style is shown in style "B" below. This box is approved by the USPS, and is now the standard for installation if and when a replacement is necessary. Information about purchase can be obtained by contacting our HOA management.

Style "A"

Style "B"
